

Questionnaire

These are questions to be answered to submit a work to the Karl-Heinz Höhne-Price 2020 for medical visualization (medvis-award). The price is provisionally endowed with a total sum of 1000 € (less sales taxes), presumably donated by the BrainLab AG, and awarded by the working group of Visual Computing in Biology and Medicine of the German Society for Computer Science. The prize money will be divided according to the jury's votum among prize-worthy contributions (e.g., 1st price: 400€, 2nd price: 250€, 3rd price: 200€).

Please find further information at <https://www.fg-medvis.de/appaward.html>.

1. What is the relevance of the work? What is the relation to medical education, diagnostic, or treatment?
2. What is the originality of the work?
3. What kind of progress to the issue has been reached?

4. Which works (publications) relate most to the submitted?

5. To what extent was the work been tested by users?

6. Personal
